<b>CNP</b>	<b>DIRECT</b>	<b>INDIRECT</b>	<b>INDEPENDENT</b>	<b>ASPIRATIONAL</b>	<b>N/A</b>
Cannot perform this skill even under direct assistance	Should perform this skill under <u>direct</u> supervision of a senior resident or fellow	Can perform this skill under indirect supervision of the attending (does not need senior resident or fellow supervision)	Can perform this skill independently (at the ATTENDING level)	Can act as instructor or supervisor for this skill	

<b>COMPETENCY</b>	<b>CNP</b>	<b>DIRECT</b>	<b>INDIRECT</b>	<b>INDEPENDENT</b>	<b>ASPIRATIONAL</b>	<b>N/A</b>
Demonstrates appropriate medical knowledge and clinical reasoning skills needed to diagnose, treat, and optimize care of medical patients.						
Renders accurate medical and pre-operative consultations as requested.						
Recognizes and responds to urgent and emergent clinical scenarios requiring prompt intervention to address life-threatening conditions including implementing ACLS protocols and serving as code team leader.						
Effectively leads discussions with patients, their families and consultants.						
Completes administrative tasks in a consistent and timely fashion and appropriately documents assessments/plans.						
Develops and implements continuous improvements in patient safety, personal performance, and systems of health care delivery.						
Accepts feedback and incorporates it into practice						
Utilizes and teaches principles of evidenced-based practice and cost-conscious medicine to deliver high-quality clinical care.						
Facilitates optimal transitions of care including patient hand-offs, discharge planning, hospital summaries, and hospital follow up as directed.						
Oversees performance and acts as primary educator to junior members of the team (junior residents, medical students, patients) and provides active feedback and action plans for improvement.						
Has professional and respectful interactions with all members of the healthcare team, maintains confidentiality.						
Develops and implements continuous improvements in patient safety, personal performance, and systems of health care delivery.
